598, line 4: possible *should read* impossible
604, line 13, last word: *delete* the
616, line 30: *before* LOVE *insert* [**19**]

The above list contains substantial *corrigenda*. Other less significant ones (e.g. upper case for lower case and *vice versa*; italic for roman) will be incorporated into any new edition. The book was checked more than once before it went to the press – evidently, not thoroughly enough. From the time of publication (May, 1997), each copy has included a list of *corrigenda*. This has increased in length as time has elapsed. I should be grateful if readers would bring to my attention any further errors that might have escaped my notice. The defects of my labours are not without precedent.

"I found a great many Faults in the Contrivance, the Language, and a great many other Things, which I design'd to have made a Catalogue of…"

                                        BERNARD MANDEVILLE
                                            Preface to ***The Virgin Unmask'd*** (1709)
